DETAILED ACTION

1. The amendment filed on June 05th, 2007 overcomes the following objection/rejection of the last Office Action:

- a. Rejection to the claim 24 for 35 U.S.C. 101 issues.

Response to Arguments

1. Applicant's arguments filed on June 05th, 2007 have been fully considered but they are not persuasive.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 12-24 are rejected under 35 U.S.C. 102(b) as being anticipated by Mostafa, WO 02/43414 for the same reasons as set forth in the last Office Action.

Response to Remarks

In response to the applicant's remarks, in the remarks applicant stated that Mostafa reference teaches that performing at least one of a data type and a data format conversion in accordance with a profile of a receiver of the data. But Mostafa fails to

Art Unit: 2611

teach updating a link, after the conversion, to maintain a validity of the link in the data between the different data elements. The examiner is respectfully disagreeing to the applicant's statement. Office Action dated January 05th, 2007 point to the relevant portion of the Mustafa's reference where it teaches updating a link. To clarify this assertion further, in this new Office Action, examiner is pointing applicant's attention to other sections of Mustafa's reference where it further clarifies teaching an updated link, after a conversion, to maintain a validity of the link in the data between the different elements (page 8, line 26-page 9, line2, " preferably, the network entity is adapted (updated) to translate the media components between at least two different formats (different data elements). Even more preferably, it is adapted, or it is arranged in such a way that it can be adapted to translate the media components between all necessary formats in order to allow reception (which is maintaining the validity) and playing back of the media content by said at least one addressed recipient. In the latter case, the media content can be relayed to said at least one addressed recipient regardless of the format in which it was transmitted from the sending entity").

For the reason above, the previous grounds or rejection as set forth in the last Office Action are maintained.

Conclusion

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
